I am writing to express my interest in the Leiter Operations & Produktion (Site Director) position for the Bodensee region, as recruited exclusively by CONCAPE. I understand you are seeking an experienced leader with a strong operations focus and strategic vision for a family-run production company in the food industry.

My professional background is in software engineering and systems architecture, where I have spent over four years designing, building, and maintaining complex, full-stack platforms. This work has required me to take full ownership of technical projects from initial concept through to production deployment, manage resources effectively, and ensure stable, efficient, and secure operations. I have developed a structured, hands-on approach to problem-solving and a strong focus on measurable outcomes.

A key part of my role has been identifying and implementing optimization opportunities across the entire development and deployment lifecycle. I have experience driving continuous improvement in system performance, reliability, and cost-efficiency, and I am comfortable taking responsibility for technical KPIs and budgets. I have also led change processes by introducing new tools, workflows, and automation to improve team productivity and system stability.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am confident that my strategic thinking, operational focus, and hands-on leadership style would allow me to contribute effectively to your client’s production operations. I have attached my CV for your review and welcome the opportunity to discuss how my experience aligns with this role.

Sincerely,

Md Shahanur Islam Shagor
