I am writing to express my interest in the Leiter Operations & Produktion (Site Director) position at CONCAPE, recruiting exclusively for a family-owned production company in the food industry in the Bodensee region.

While my professional background is in software engineering and systems architecture rather than production management, I have consistently taken ownership of complex technical projects end-to-end. My work involves optimizing system performance, coordinating across teams, and delivering reliable results under operational pressure. These experiences have developed my ability to think strategically while staying hands-on with execution.

One area that particularly interests me is the emphasis on identifying and implementing optimization potential across the entire value chain. In my previous work as a Web Developer, I regularly analyzed system bottlenecks, improved database query performance, and streamlined deployment workflows. This structured, data-driven approach to improvement aligns well with the operational focus of this role.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
