I am writing to apply for the Werbetechniker/Folientechniker/Folierer position at Letus´fi Werbemanufaktur GmbH. I understand this role requires hands-on expertise in vehicle wrapping, signage installation, and working with modern production equipment.

My background is in software engineering, with a focus on full-stack web development and AI systems. I have worked with technologies like Laravel, Next.js, React, and Node.js to build scalable applications. I have also developed real-time systems and deployed applications on Linux servers using Docker and Nginx.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
