I am writing to apply for the Kundenbetreuung / Sachbearbeitung position at Enercapital - Solution GmbH. Your company's focus on simplifying and accelerating financing for renewable energy projects like photovoltaics, heat pumps, and e-mobility is genuinely impactful, and I would be glad to contribute to your service and backoffice operations.

Through my professional experience as a Web Developer, I have developed a structured and detail-oriented approach to managing tasks and documentation. I am comfortable handling multiple cases in parallel, tracking statuses, and ensuring that every step of a process is completed accurately and on time. I bring the same reliability and follow-through to administrative and customer-facing work.

In my previous roles, I was responsible for maintaining clear records, managing project documentation, and communicating progress to stakeholders. I am confident in my ability to review documents for completeness, follow up on missing items, and keep CRM data accurate and up to date. I enjoy bringing order to processes and seeing cases through to a clean finish.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am a reliable, structured, and friendly communicator who takes ownership of tasks and works well both independently and as part of a team. I have attached my CV for your review and would welcome the opportunity to discuss how I can support your team.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
