I am writing to apply for the Accommodation Administrator position at Sodexo, working across Far North Queensland sites on a 14/7 FIFO roster. Sodexo's role in supporting remote mining and energy communities through quality-of-life services is something I find genuinely meaningful, and I am keen to contribute to your team in this capacity.

Although my professional background is in software engineering, I have developed strong organizational and data management skills through years of building and maintaining complex systems. In my previous work as a Web Developer, I managed databases, handled large volumes of data entry, and maintained accurate records across multiple projects. These experiences have given me the discipline and attention to detail needed for administrative roles.

I am comfortable working in structured, fast-paced environments and have experience coordinating tasks across teams. My work on real-time monitoring dashboards and multi-user platforms required clear communication, documentation, and the ability to prioritize effectively under pressure. I am confident these skills transfer well to accommodation administration, flight bookings, and receptionist duties.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I hold a valid Open C class Driver's Licence and am ready to work on a FIFO basis from Cairns. I am organized, self-motivated, and eager to support Sodexo's mission of creating a home away from home for remote site workers. I have attached my CV for your review and look forward to the opportunity to discuss how I can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
