I am writing to apply for the Caretaker position at Manor Park Primary School. The opportunity to contribute to a safe, clean, and welcoming environment where children can thrive is something I take seriously. I understand the responsibility that comes with maintaining high standards of cleanliness, health and safety, and site security, and I am ready to bring my reliability and attention to detail to this role.

Although my professional background is in software engineering, the skills I have developed translate well into this position. Over the years, I have learned to manage complex tasks independently, organize workloads efficiently, and take ownership of outcomes. I approach every responsibility with a methodical mindset, ensuring that nothing is overlooked and that systems run smoothly.

I am comfortable working as part of a team and building positive relationships with colleagues, students, and visitors. I communicate clearly and respectfully, and I am used to collaborating with people from different backgrounds. I am also fluent in English and Bengali, which allows me to connect with a diverse school community.

I am a quick learner and a practical problem solver. I do not wait for instructions when something needs to be done. I take initiative, use my judgment, and follow through until the job is completed properly. I understand that a school environment requires someone who is visible, reliable, and proactive.

I have attached my CV for your review. I would welcome the opportunity to discuss how I can contribute to the team at Manor Park Primary School. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
