I am writing to apply for the Housekeeper position at Kabannas. Your description of a vibrant, community-driven space where guests can feel at home resonates with me. I value creating environments that are clean, organised, and genuinely welcoming.

While my professional background is in software engineering, I have always taken pride in maintaining high standards of cleanliness and order in every space I occupy. I am reliable, consistent, and pay close attention to the details that make a difference in how a room or shared area feels.

I enjoy working as part of a team and communicating clearly with others to ensure everything runs smoothly. I am organised, manage my time effectively, and take ownership of my responsibilities. I understand that behind-the-scenes work is essential to creating a positive guest experience.

In addition to my work ethic, I work effectively across teams and communicate clearly with people from different backgrounds. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international environments.

I have attached my CV for your review. I would welcome the opportunity to contribute to the Kabannas team and help create the spaces where guests can truly relax and recharge.

Sincerely,

Md Shahanur Islam Shagor
