I am writing to apply for the Senior Director of Brand Marketing position at Coleto Brands. While my professional background is in software engineering, I bring a strong systems-oriented mindset, experience leading cross-functional technical initiatives, and a data-driven approach to decision-making that aligns well with the strategic and operational demands of this role.

Coleto Brands' commitment to enhancing spaces through design and functionality, particularly through flagship brands like Kichler and Progress Lighting, is impressive. The opportunity to define and protect brand strategy across a multi-brand portfolio resonates with my experience in building scalable, consistent systems from the ground up.

In my professional experience as a Web Developer, I have worked closely with product, design, and business stakeholders to translate high-level goals into cohesive digital experiences. I have led the development of platforms that required strict adherence to brand guidelines, consistent messaging, and seamless user experiences across multiple touchpoints. This has given me a practical understanding of how brand strategy must be executed consistently across websites, content, and customer-facing interfaces.

One area that particularly interests me is the role's emphasis on brand stewardship and governance. In previous work, I have established technical standards, documentation, and review processes to ensure consistency across large-scale projects. I am comfortable balancing high-level strategy with hands-on execution, and I have a track record of using data and insights to refine approaches and measure impact.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
