I am writing to apply for the Bˆ…romitarbeiter/in position at Bahnhˆ¶fchen Restaurant UG (hb) & Co KG. Your description of a structured, reliable office role with responsibilities spanning administration, documentation, and coordination aligns with the kind of work I am looking for.

Although my professional background is in software engineering, I have developed strong organizational habits through managing complex projects, coordinating with multiple stakeholders, and maintaining detailed documentation. I am comfortable with MS Office applications and can handle data entry, record keeping, and file management efficiently.

In my previous roles, I was responsible for maintaining project documentation, tracking progress, and ensuring that all administrative records were accurate and up to date. I approach tasks systematically and take ownership of my responsibilities. I am confident I can support your team with general office tasks, invoice preparation, and coordination with external offices.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am looking for a stable office position where I can contribute reliably and grow professionally. I have attached my CV for your review and would welcome the opportunity to discuss how I can support your team.

Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
