I am writing to apply for the Studentische Hilfskraft Backoffice & Recherche position at Geschichtsbˆ…ro Reder / Kˆ¶ln. As a Software Engineering student at Voronezh State University, I bring strong organizational skills, careful attention to detail, and a methodical approach to research and data management.

The role involves literature research, library management, CRM data entry, and supporting outreach efforts. These tasks require precision and reliability. In my academic work, I have developed a habit of working carefully with databases and structured information. I understand that accuracy in research and data handling is essential, especially when supporting projects that document company and family histories.

What stands out to me about Geschichtsbˆ…ro Reder is the opportunity to apply my organizational skills in a context where history is communicated across multiple media forms. I appreciate the blend of backoffice structure with creative storytelling, and I am interested in contributing to projects that make history accessible and engaging.

In addition to my technical and organizational experience, I work effectively across teams and communicate clearly with both technical and non-technical colleagues. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am available for 10 to 20 hours per week and can work from your office in Cologne. I have attached my CV for your review and look forward to the possibility of contributing to your team.

Sincerely,

Md Shahanur Islam Shagor
