I am writing to apply for the Head of Influencer Marketing position at RealStudio GmbH. Your work as a growth partner for over 100 major German B2C brands, including AG1, AirUp, and TOOM Baumarkt, is impressive. I am interested in contributing to the development and execution of creative concepts with creators for your top brands.

Although my professional background is in software engineering, I bring a strong analytical and data-driven mindset that is valuable for creative strategy and KPI analysis. In my previous work as a Web Developer, I regularly analyzed performance metrics, optimized assets, and collaborated closely with stakeholders to improve outcomes. These skills translate directly to understanding what content performs best and how to continuously refine creative assets.

One area that particularly interests me is the emphasis on close collaboration with founders and the responsibility for creator processes. In my professional experience, I have worked directly with business stakeholders and engineering teams to deliver results, communicate clearly, and adapt quickly to changing priorities. I am comfortable taking ownership of processes and driving continuous improvement.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am available to work remotely with flexible hours and am ready to go the extra mile. I have attached my CV for your review and look forward to discussing how I can contribute to RealStudio GmbH’s success.

Sincerely,

Md Shahanur Islam Shagor
