I am writing to apply for the Head of TikTok Shop position at RealStudio GmbH. Your work as a growth partner for over 100 top German B2C brands is impressive, and I am interested in contributing to the strategic development of your TikTok Shop operations.

While my core expertise is in software engineering, I have built and managed full-stack e-commerce platforms that required deep understanding of marketplace operations, user roles, and performance optimization. For example, I developed a multi-vendor e-commerce ecosystem with Laravel and Flutter, integrating role-based access control, payment gateways, real-time notifications, and logistics coordination. This experience gave me practical insight into how digital platforms drive sales and customer engagement.

In my professional experience as a Web Developer, I have worked closely with stakeholders and founders to deliver scalable web applications. I am comfortable analyzing KPIs, optimizing assets, and iterating quickly based on data. I also have strong communication skills and enjoy collaborating across teams to achieve shared goals.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
