I am writing to apply for the TikTok Shop - Creator Manager position at RealStudio GmbH. Your work as a growth partner for major German B2C brands like AG1, AirUp, and TOOM Baumarkt is impressive, and I am interested in contributing to your creative processes with top creators on TikTok Shop.

Through my professional experience as a Web Developer, I have developed strong analytical and communication skills that translate well into creative strategy and trend analysis. I have worked closely with stakeholders and founders to develop concepts, optimize workflows, and continuously improve assets based on performance data.

One area that particularly interests me is the combination of creative concept development and KPI-driven optimization. In my previous work, I regularly analyzed performance metrics and iterated on content and features to improve outcomes. I am confident I can apply this same structured approach to managing creator processes and optimizing TikTok Shop assets.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am fully available and ready to contribute from day one. I have attached my CV for your review and look forward to discussing how I can support RealStudio GmbH’s creator management efforts.

Sincerely,

Md Shahanur Islam Shagor
