I am writing to apply for the Personaldisponent / OnSite Manager (gn) position at MatchingCompany´fi in Hamburg. While my professional background is in software engineering, I bring a structured approach to project coordination, strong communication skills, and a genuine interest in working with people.

In my previous roles as a web developer, I was responsible for managing project timelines, coordinating between stakeholders, and ensuring deliverables met quality standards. This required clear communication, attention to detail, and the ability to adapt quickly to changing priorities.

One area that particularly interests me is the opportunity to support international teams. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating across cultures. I am confident I can build strong relationships with colleagues and candidates alike.

I am comfortable taking ownership of tasks, analyzing workflows to identify improvements, and maintaining a service-oriented attitude. I am eager to bring this mindset to the Personaldisponent role and contribute to the success of your team.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
