I am writing to apply for the Praktikant (m/w/d) Human Resources position at allaboutHRLaw GmbH in Leipzig. Your company's approach to providing HR as a service for startups and SMEs is practical and impactful, and I am interested in contributing to your team while learning the fundamentals of human resources in a real business environment.

Although my professional background is in software engineering, I bring a structured and detail-oriented work style that aligns well with the responsibilities of this role. I am accustomed to managing multiple tasks simultaneously, maintaining clear documentation, and communicating effectively with colleagues and stakeholders. These habits transfer naturally to recruiting support, applicant management, and administrative coordination.

I am a quick learner who adapts well to new domains. In previous roles, I have worked across teams, coordinated workflows, and taken ownership of tasks from start to finish. I approach work with precision and reliability, and I am comfortable using digital tools and office software to stay organized and efficient.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am ready to bring my energy, discipline, and willingness to learn to your team in Leipzig. I have attached my CV for your review and look forward to the possibility of discussing how I can contribute to allaboutHRLaw.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
