I am writing to apply for the Full-Time English Tutor position at Flalingo. Your approach to combining live online lessons with Generative AI to create a personalized learning journey is genuinely interesting, and I appreciate the emphasis on making a positive impact on students worldwide.

My background is in software engineering, where I have spent years communicating complex technical concepts clearly to diverse audiences. This has given me strong English communication skills and the ability to adapt my language and teaching style to different learners. I am comfortable using technology effectively in lessons and am proficient with online platforms.

I am tech-savvy, have a reliable home workspace with high-speed internet, and am committed to the minimum 30 hours per week requirement. I work well in remote, international environments and enjoy connecting with people from different cultures.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
