I am writing to apply for the Client Success Coach (CSM) position at Impact Clients. Your mission to help people launch impactful online digital arbitrage businesses resonates with me because I value mentorship and practical guidance that creates real change in people's lives. The opportunity to work with Richard Yu's growing education platform is genuinely compelling.

Although my professional background is in software engineering, I have developed strong coaching and communication abilities through years of guiding clients, mentoring junior developers, and leading onboarding sessions for new team members. I am comfortable conducting one-on-one and group calls, recording training videos, and providing clear, actionable feedback. I understand the importance of accountability and motivation in helping people achieve their goals.

I am proficient with tools like Slack, GSuite, Calendly, and CRMs, and I have a track record of learning new platforms quickly. My experience working remotely across different time zones has taught me to communicate clearly, document processes thoroughly, and maintain high attention to detail even under changing priorities. I am comfortable with daily reporting across multiple channels and can help innovate SOPs to improve team efficiency.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am looking for a long-term role where I can grow with the company and make a meaningful impact. I have attached my CV for your review and would welcome the chance to discuss how I can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
