I am writing to apply for the Privatkundenberater position at Raiffeisenbank eG Baunatal. Your emphasis on structured onboarding, personal development, and potential over a perfect resume aligns with my own approach to growth and learning.

Although my professional background is in software engineering, I have consistently worked in roles that require clear communication, active listening, and building trust with stakeholders. At Explo-IT and DataSoft LTD., I collaborated closely with clients and team members to understand requirements, explain technical solutions, and ensure project success. These experiences have strengthened my ability to connect with people and address their needs effectively.

What draws me to this opportunity is the structured path toward becoming a Privatkundenberater. I am a quick learner who thrives in environments where I can acquire new skills through hands-on experience and guided training. Your offer of qualifications through the GenoAkademie and personal mentoring is exactly the kind of support I value when entering a new field.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am ready to bring my dedication, communication skills, and willingness to learn to Raiffeisenbank eG Baunatal. I have attached my CV for your review and look forward to the possibility of discussing how I can grow into this role with your team.

Sincerely,

Md Shahanur Islam Shagor
