I am writing to apply for the System- und Netzwerkadministrator position at Ritter Technologie GmbH. Your company's role within a stable group of 100 enterprises and 6,500 employees, delivering custom applications integrated with standard products, presents an environment where reliable infrastructure directly supports business impact. This is the kind of operational context where I want to contribute.

My technical foundation is built on Linux system administration, server configuration, and network-aware application deployment. Through professional experience, I have worked extensively with Linux-based environments, configuring Nginx and Apache web servers, managing Docker containers, and setting up CI/CD pipelines for production systems. These responsibilities required a solid understanding of firewall rules, port management, and secure server communication, which aligns with your need for firewall administration using Linux-based solutions.

In previous roles, I was responsible for deploying and maintaining web applications on Linux servers, which involved configuring virtual hosts, managing SSL certificates, troubleshooting connectivity issues, and ensuring system security through proper access controls. I also worked with monitoring tools and maintained documentation for deployment procedures and system configurations. This hands-on experience with server infrastructure, combined with my understanding of network fundamentals, positions me well to support your team in firewall administration, VPN configuration, and switch management.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my infrastructure and system administration experience can support Ritter Technologie GmbH's operations. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
