I am writing to apply for the Mietenbuchhalter/in position at Augustus Management GmbH. Your company's role in managing a diverse real estate portfolio for a global investment group caught my attention, and I am interested in contributing to your team in Berlin.

Although my professional background is in software engineering rather than traditional accounting, I bring a strong foundation in data accuracy, financial systems, and process organization. Through my work building web applications, I have developed systems that handle financial transactions, user data management, and reporting workflows. These experiences have trained me to work precisely with numbers, maintain clean records, and ensure data integrity across multiple systems.

In my professional experience as a Web Developer, I built and maintained applications that involved payment gateway integration, transaction processing, and database management. I worked with MySQL and PostgreSQL to design schemas that stored financial data reliably, and I created reporting features that required accuracy and attention to detail. This technical discipline translates directly to the kind of careful, exact work required in accounts payable and receivable management.

One area that particularly interests me is the opportunity to work with internal teams like Asset Management and Property Management. In my previous roles, I collaborated regularly with stakeholders across departments, translating requirements into functional systems and ensuring smooth communication between technical and non-technical team members. I am comfortable taking ownership of processes and working independently when needed.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
