I am writing to apply for the Senior Online Marketing Manager position at INDUMERA GmbH. Your work helping over 130 industrial companies grow through targeted marketing campaigns is impressive, and I am interested in contributing to your team.

My background is in software engineering and AI, where I have developed strong analytical and process-oriented skills. I am comfortable working with data, analyzing performance, and deriving actionable insights. This analytical mindset, combined with my experience in client-facing roles, aligns well with the responsibilities of this position.

In my professional experience, I have managed client projects end-to-end, from initial requirements gathering to delivery. I have conducted technical onboarding sessions, set up tools and processes, and served as the direct point of contact for clients. I am disciplined, detail-oriented, and comfortable working under pressure.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how my skills can contribute to INDUMERA’s continued success.

Sincerely,

Md Shahanur Islam Shagor
