I am writing to apply for the Template position at Justworks. With 4 years of full-stack development experience and a strong foundation in modern web technologies, I am confident I can contribute effectively to your team.

My expertise spans Laravel, Next.js, React, Node.js, and TypeScript, which I have used to build and deploy production-grade applications. I focus on writing clean, maintainable code and building systems that are both scalable and performant.

In my professional experience, I have designed RESTful APIs, implemented authentication and role-based access control, integrated payment gateways, and optimized database queries for better performance. I have also worked with real-time features using WebSockets and deployed applications on Linux servers with Docker, Nginx, and CI/CD pipelines.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my background aligns with the needs of your team. Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
