I am writing to apply for the Class 1 Shunt Driver position at Coca-Cola Canada Bottling Limited. I am a hard worker and a quick problem solver, and I am ready to contribute to your team in Regina.

While my professional background is in software engineering, I have consistently demonstrated the ability to learn new skills quickly and perform reliably under structured schedules. I am fully prepared to meet the shift requirements of Monday to Friday, 1pm to 9:30pm, and to operate safely within your distribution center.

I understand the importance of punctuality, safety protocols, and teamwork in a logistics environment. I am committed to following procedures, maintaining equipment, and supporting the overall efficiency of the operation.

In addition to my technical background, I work effectively across teams and communicate clearly. I am fluent in Bengali and English, with working knowledge of Russian and Hindi.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
