I am writing to apply for the Projektmanager Vertragsmanagement position at MY Humancapital GmbH. The role's focus on coordinating commercial processes, managing project data, and overseeing administrative workflows aligns with my experience in structured project execution and cross-functional collaboration.

Through my professional experience, I have developed a systematic approach to managing project timelines, monitoring costs, and ensuring deliverables meet quality standards. I have worked with internal teams to coordinate tasks, track progress, and maintain clear documentation throughout the project lifecycle. This has given me practical experience in overseeing administrative processes from initial request through to final reporting.

One area that particularly interests me is the responsibility of creating offers, performing price and cost calculations, and managing commercial order processing. In previous projects, I have handled similar tasks by maintaining accurate records, preparing reports, and ensuring data integrity across multiple workstreams. I am comfortable working with data-driven tools and maintaining structured workflows to support project success.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my project coordination skills can contribute to your team in Munich.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
