I am writing to apply for the Werkstudent (m/w/d) im Marketing fˆ…r Kreuzfahrten position at Kreuzfahrtberater GmbH. Your role as a leading online cruise portal in the DACH region and your focus on combining marketing with smart AI tools is what drew me to this opportunity.

Through hands-on project development, I have gained practical experience using AI tools for content generation and analysis. I have worked with OpenAI's models to create marketing copy, trained AI assistants on custom datasets, and used AI for research and competitive analysis. This directly supports your need for KI-gestˆ…tztes Texten and Recherchen.

In previous work, I have built full-stack web applications using Next.js, Laravel, and MySQL, which involved creating responsive UIs, managing content, and integrating third-party services. I am comfortable with digital tools and can support your website content, newsletter preparation, and image selection tasks.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the chance to discuss how I can contribute to your marketing team.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
