I am writing to apply for the Docente Tiempo Parcial Derecho Remoto position at Universidad Privada del Norte. While my professional background is in software engineering rather than law, I bring strong technical capabilities and a commitment to supporting educational environments through digital tools and remote collaboration.

Through my work as a full-stack developer, I have built and maintained web applications using Laravel, Next.js, React, and MySQL. I have experience designing online platforms, managing user authentication, and ensuring reliable system performance. These skills could contribute to the digital infrastructure that supports your remote teaching model.

In my previous roles, I have worked remotely with international teams, communicated clearly across time zones, and delivered projects on schedule. I am comfortable with online collaboration tools and can adapt quickly to new educational platforms and workflows.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
