I am writing to apply for the Tutor position at Apprentus. The opportunity to teach and share knowledge in a flexible, self-directed environment aligns well with my background and interests.

Through my professional experience as a Web Developer, I have developed strong communication and explanation skills. I regularly break down complex technical concepts for colleagues and stakeholders, which translates naturally into teaching.

I am comfortable offering classes in programming, web development, and related technical subjects. I can adapt my teaching to different skill levels and learning styles, whether working with beginners or more advanced students.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I appreciate the flexibility Apprentus offers in setting my own schedule, rates, and teaching format. I am ready to start and build a strong reputation as a tutor. My CV is attached for your review.

Sincerely,

Md Shahanur Islam Shagor
