I am applying for the Video Editor / Content Creator fˆ…r Reels position at Preikschat Consulting GmbH. The idea of working directly with someone who values substance over effects and wants to grow a personal brand without wasting time on unnecessary polish is exactly the kind of setup where I do my best work.

I understand the rhythm of this role. One fixed shoot day per week, filming with the Osmo Pocket 4, then cutting 7-8 reels that hook fast, subtitle clearly, and respect the viewer's time. I know that speed and judgment matter more than fancy transitions. I have spent enough time consuming and creating short-form content to recognize what keeps a viewer watching and what makes them scroll past.

While my background is primarily in software engineering, I have developed a strong sense of visual structure, timing, and clarity through building user-facing interfaces and multimedia projects. I am comfortable working with editing tools, organizing footage efficiently, and adapting content for Instagram, YouTube Shorts, and LinkedIn without losing the core message.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would be glad to share two reels I have edited and a short note about myself, as you requested.

Sincerely,

Md Shahanur Islam Shagor
