I am writing to apply for the Projektassistenz (m/w/d) - Projektkoordination position at MY Humancapital GmbH's partner company in Munich. Your description of a role that supports national and international projects through administrative coordination, data management, and cross-team collaboration matches my working style and experience.

Through my professional experience as a Web Developer, I have supported complex projects by managing documentation, coordinating with technical and commercial teams, and ensuring that administrative workflows run smoothly. I am comfortable working with structured data, maintaining accurate records, and preparing information for different stakeholders.

One area where I consistently deliver is in bridging communication between technical teams and business-side colleagues. I have worked closely with project managers, developers, and clients to keep projects organized and on track. I am used to handling multiple priorities, checking details carefully, and taking responsibility for the quality of my work.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to your team.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
