I am writing to apply for the HR Administration (m/w/d) in Teilzeit (50%) position at Flughafen Friedrichshafen GmbH. I understand the importance of maintaining accurate records, organized workflows, and reliable administrative support within an HR department.

Although my professional background is in software engineering, I have developed strong organizational habits through managing complex projects, tracking deadlines, and maintaining structured documentation. I am comfortable working with data, systems, and processes that require precision and consistency.

I am a reliable and detail-oriented individual who values clarity and order. I am confident I can support your team with tasks such as maintaining personnel files, updating master data, preparing payroll information, and managing document systems. I am also familiar with Excel and various digital tools.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am looking for a part-time role where I can contribute consistently and reliably. I have attached my CV for your review and would welcome the opportunity to discuss how I can support your HR team.

Sincerely,

Md Shahanur Islam Shagor
