I am writing to apply for the Projektkoordination & Client Success role at Social Food Collective. Your work at the intersection of food, hospitality, and community building stands out to me, and I appreciate that you value responsibility and initiative over a perfect resume.

Although my professional background is in software engineering, my day-to-day work has always involved strong coordination and client communication. In my role at Explo-IT, I was responsible for gathering requirements, managing project timelines, and serving as the bridge between clients, partners, and the development team. I kept Trello boards updated, prepared meeting materials, and ensured that all stakeholders were aligned on deliverables and deadlines.

I am comfortable working independently and taking ownership of tasks. I bring a structured approach to project coordination, whether it is preparing presentations, following up with clients, or keeping project plans current. I enjoy bringing clarity to creative workflows and making sure nothing falls through the cracks.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am looking for a flexible freelance arrangement where I can contribute meaningfully while growing with a small team. I have attached my CV for your review and would welcome the chance to discuss how I can support your projects.

Sincerely,

Md Shahanur Islam Shagor
