I am writing to apply for the Clinical Proofreader Editor position at 4 Corner Resources. The role's focus on ensuring accuracy, compliance, and quality in member and provider correspondence aligns with my own commitment to precision and clear communication.

Although my professional background is in software engineering, I have developed strong written and verbal communication skills through years of technical documentation, client communication, and cross-team collaboration. My experience includes reviewing complex system outputs, identifying gaps, and providing actionable feedback to improve quality and reduce errors.

In previous work, I collaborated closely with stakeholders to ensure that all communications met regulatory and branding standards. I am comfortable working with templates, managing correspondence lifecycles, and maintaining consistency across large volumes of content. My ability to think critically and solve problems methodically has been essential in delivering accurate results under deadlines.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am confident that my attention to detail, organizational skills, and adaptability make me a strong fit for this role. I have attached my CV for your review and welcome the opportunity to discuss how I can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
