I am writing to apply for the Social Media Coordinator position at The Nature Conservancy. Your mission to protect lands and waters through science-based solutions resonates with me, and I appreciate the focus on cultivating a global community connected by a shared love of nature.

My background is in software engineering, where I have developed strong project coordination and cross-functional collaboration skills. In my previous roles, I regularly sourced, organized, and prepared content from internal stakeholders, ensuring assets were properly tagged, tracked, and scheduled for publishing. I am comfortable maintaining content calendars and making real-time adjustments based on shifting priorities.

I have experience editing copy, proofreading business documents, and communicating clearly with both technical and non-technical teams. I am familiar with tools like Canva and Asana and can quickly learn social media management platforms. I understand the importance of brand voice and engagement guidelines when responding to comments and messages.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how I can contribute to TNC’s social media efforts and help advance your mission.

Sincerely,

Md Shahanur Islam Shagor
