I am writing to apply for the Influencer Marketing Coordinator position at Nello. Your focus on scaling creator partnerships and managing influencer campaigns behind the scenes caught my attention.

Although my professional background is in software engineering, I have developed strong organizational and coordination skills through managing complex, multi-stakeholder projects. I am comfortable tracking performance metrics, maintaining detailed records, and ensuring that nothing falls through the cracks.

In my previous work as a web developer, I regularly coordinated with cross-functional teams including creative, content, and growth stakeholders to keep projects on track. I managed timelines, deliverables, and communication across multiple parties, which translates well into the influencer coordination workflow.

I am a self-starter who thrives in remote, independent work environments. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and communicate clearly with both technical and non-technical teams.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
