I am writing to apply for the Manager of Influencer Marketing position at Newhouse. Your agency's work across entertainment, automotive, finance, and DTC verticals is impressive, and I am drawn to the opportunity to contribute to campaigns for well-known brands.

My background is in software engineering, where I have developed strong analytical and organizational skills. I am comfortable working with data, managing complex workflows, and ensuring that projects meet defined standards. These skills translate directly to campaign development, creator discovery, and budget management.

In previous work, I have coordinated with multiple stakeholders, maintained clear documentation, and communicated effectively across teams. I am detail-oriented and comfortable managing timelines, onboarding processes, and quality checks.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how my skills can support Newhouse's influencer marketing efforts.

Sincerely,

Md Shahanur Islam Shagor
