I am writing to apply for the Events & Experiences Coordinator role at BlinkRx. Your work in making prescriptions accessible and affordable through technology is genuinely impactful, and I would welcome the opportunity to contribute to the team that brings these products to life through well-executed events.

My professional background is in software engineering, where I have spent over four years coordinating complex technical projects across multiple teams and stakeholders. This experience has taught me how to manage competing priorities, track detailed logistics, and communicate clearly under pressure. I am comfortable adapting to fast-moving situations and keeping things running smoothly when plans change.

In previous work, I have been responsible for coordinating timelines, managing vendor communications, and ensuring that deliverables are completed on schedule. I have built and maintained detailed documentation, tracked project milestones, and flagged risks early to keep projects moving forward. These skills translate directly to event coordination, where precision and adaptability are essential.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
