I am writing to apply for the Salesforce Project Manager position at InfoTip Service GmbH. Your work digitizing service, sales, and CRM processes for over 25 years, serving clients from mid-market companies to international brands, stands out to me. I am interested in contributing to a team that values active project shaping over simple administration.

My professional experience includes coordinating project teams, planning resources and budgets, and managing timelines across multiple workstreams. I have worked closely with developers, consultants, and stakeholders to ensure alignment between technical delivery and business goals. I am comfortable moderating status meetings, identifying project risks early, and implementing corrective measures to keep projects on track.

In previous roles, I managed full project lifecycles from kick-off to deployment, maintaining clear communication with clients and internal teams throughout. I worked within agile frameworks, iterating on deliverables while ensuring transparency on progress, budget, and potential roadblocks. This experience has given me a structured, solution-oriented approach to project management.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how my project management experience and collaborative approach can support InfoTip’s client projects.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
