I am writing to apply for the Social Media Advertising Manager / Paid Social Manager position at Klickkonzept by Cosmo5. Your focus on data-driven, AI-enabled performance marketing and the collaborative, T-shaped team culture resonates with how I approach complex problems.

Through my work as a Full-Stack & AI Engineer, I have developed a strong analytical mindset and a data-first approach to decision-making. I am comfortable working with KPIs, identifying patterns in data, and translating those patterns into clear, actionable recommendations. I have hands-on experience integrating AI tools into workflows to automate tasks and improve efficiency, which directly supports your KI-Enablement initiative.

One area that particularly interests me is the intersection of creative performance and technology. I understand that the best ad creative is useless without a well-optimized landing page and a cohesive user journey. In my previous projects, I have built systems that connect user-facing interfaces with backend analytics, ensuring that every part of the funnel works together toward a common goal. This cross-channel perspective aligns with your emphasis on holistic, revenue-generating journeys.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I look forward to the possibility of contributing to Klickkonzept’s innovative team.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
