I am writing to apply for the Social Media Reporter*in position for the Reeperbahn Festival 2026. The opportunity to cover live concerts and conference events on Instagram sounds like a dynamic and engaging role, and I would be glad to contribute.

Although my professional background is primarily in software engineering, I have a strong practical understanding of Instagram and its content creation tools. I regularly use the platform and am comfortable creating posts, stories, and short-form video content that captures the energy of live events.

I am available for the full duration of the festival from September 16 to 19, 2026. I am flexible, work well under pressure, and enjoy collaborating with a team. I also have my own smartphone with a high-quality camera suitable for producing clear, engaging visuals.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
