I am writing to apply for the Alternative zum Einzelhandel position at audibene GmbH. The opportunity to work directly with customers in the hearing aid industry and contribute to improving their quality of life is something I find genuinely meaningful.

In my professional experience as a Web Developer, I have developed strong organizational and communication skills. I regularly coordinated with clients, managed schedules, and handled administrative tasks such as order processing and inventory tracking. These responsibilities have given me a solid foundation in customer service and workflow management.

One area that particularly interests me is the chance to learn a completely new field. I am a quick learner who adapts well to unfamiliar environments. The structured training program offered by audibene aligns well with my approach to mastering new skills through hands-on practice and theoretical study.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am confident that my organizational skills, customer focus, and willingness to learn make me a strong candidate for this role. I have attached my CV for your review and look forward to discussing how I can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
