I am writing to apply for the Werkstudent Marketing (m/w/d) position at PHW-Gruppe. As a Software Engineering student with strong analytical skills and experience in digital project coordination, I am interested in contributing to the marketing team for the NutriQM brand.

Through my academic and project work, I have developed a methodical approach to data analysis and reporting. I regularly work with KPIs, performance metrics, and data-driven decision-making in my development projects. This analytical mindset translates well to evaluating digital marketing campaigns and conducting market analyses.

In previous project work, I coordinated with external service providers and managed multi-step workflows, ensuring timely delivery and clear communication. I am comfortable using MS Office 365 and various digital platforms for planning, tracking, and reporting tasks.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am a enrolled student in Software Engineering and can offer flexible, study-friendly working hours. I have attached my CV for your review and look forward to the possibility of contributing to PHW-Gruppe’s marketing efforts.

Sincerely,

Md Shahanur Islam Shagor
