I am writing to apply for the Video Editor / Social Media Manager role at Preikschat Consulting GmbH. I understand the need for fast, clean editing, strong hooks, and reliable remote work, and I am ready to contribute directly to building your personal brand on Instagram, YouTube, and LinkedIn.

While my professional background is in software engineering, I have developed a strong sense for content structure, user engagement, and visual clarity through years of building user-facing interfaces and multimedia projects. I work independently, meet deadlines without supervision, and communicate clearly.

I am comfortable working with raw footage, cutting it down to tight, hook-driven reels, and adapting content per platform. I understand that substance matters more than effects, and I can deliver 7-8 reels per week consistently.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and can provide two reel links as requested. I look forward to the possibility of working directly with you.

Sincerely,

Md Shahanur Islam Shagor
