I am writing to apply for the Client Success Senior Manager position at Wellhub. Your mission to make workplace wellness universal through a connected platform resonates with me, and I am interested in contributing to a company that prioritizes employee health and engagement.

In my previous role as a Web Developer at Explo-IT, I managed client relationships throughout the project lifecycle, from understanding their business objectives to delivering tailored solutions. I led meetings, presented progress updates, and collaborated with cross-functional teams including design, backend, and QA to ensure successful product launches and high user adoption.

One area that particularly interests me is driving client engagement and growth. I have experience analyzing user data, identifying trends, and developing strategies to improve adoption rates. I am comfortable presenting findings to both technical and non-technical stakeholders and enjoy working with clients to align their goals with product capabilities.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my client management and analytical skills can contribute to Wellhub’s success in Germany.

Sincerely,

Md Shahanur Islam Shagor
