I am writing to apply for the (Junior) Social Media & Personal Brand Manager:in position at DH Personal Branding Agency GmbH. Your focus on building personal brands with substance for founders and executives is something I find genuinely interesting.

As a software engineer who works extensively with AI tools like ChatGPT and Claude, I bring a practical understanding of how to use these technologies for content creation, research, and workflow automation. I also use Figma regularly for designing visual assets and have hands-on experience with digital content platforms.

In my previous work, I have coordinated content production, managed project timelines, and communicated directly with clients to understand their needs and deliver results. I am comfortable taking ownership of tasks, working independently, and bringing fresh ideas to the team.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
