I am writing to apply for the Mitarbeiter (m/w/d) Kundenbetreuung & Datenerfassung position at Dein Finanzmanangment. Your focus on helping individuals track expenses and identify savings opportunities aligns with my interest in building systems that bring clarity and structure to everyday processes.

Through my work as a software engineer, I have developed strong digital skills and a reliable, structured approach to managing data. I am comfortable working with databases, digital tools, and client-facing platforms. I understand the importance of accurate data entry and maintaining organized records.

In previous roles, I supported customer communication, prepared materials for meetings, and coordinated tasks across teams. I am used to working independently, following processes carefully, and ensuring that information is handled correctly.

In addition to my technical experience, I work effectively across teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how I can contribute to your team.

Thank you for your time.

Sincerely,

Md Shahanur Islam Shagor
