I am writing to express my interest in the Personalreferent (m/w/d) position at MY Humancapital GmbH, on behalf of their partner company in Munich. I understand this role requires a structured, reliable individual who can manage the full employee lifecycle with precision and care.

Through my work as a software engineer, I have developed a strong aptitude for managing complex, multi-step processes and maintaining meticulous records. Building and deploying full-stack applications has required me to coordinate with diverse teams, document workflows thoroughly, and ensure that every detail is accounted for from initial planning through final delivery. These skills translate directly to the responsibilities of HR administration, from contract creation to data management.

One area that particularly interests me is the coordination of onboarding and offboarding processes. In my previous roles, I have been responsible for integrating new systems and ensuring smooth transitions, which has given me a practical understanding of how to structure and manage these critical employee touchpoints. I am comfortable working with digital systems and can quickly adapt to new software, including SAP and MS Office.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am confident that my structured, solution-oriented approach and my ability to manage detailed administrative tasks would make me a valuable addition to your team. I have attached my CV for your review and look forward to the possibility of discussing how I can contribute to MY Humancapital GmbH.

Thank you for your consideration.

Sincerely,

Md Shahanur Islam Shagor
