I am applying for the Business Development Executive position at Fresha. Your platform's role as an AI-powered operating system for the beauty and wellness industry is impressive, and I am drawn to the opportunity to help grow a marketplace that connects millions of consumers with local businesses.

Although my professional background is in software engineering, I have spent years working directly with clients and stakeholders. In my role as a Web Developer at Explo-IT, I regularly communicated with partners to understand their business objectives, presented technical solutions, and managed the full delivery cycle from initial requirements to deployment. This experience has given me strong skills in relationship building, active listening, and clear communication.

I am comfortable with outreach and sales processes. I have experience managing inbound leads, documenting outcomes, and collaborating across departments to ensure a seamless partner experience. I am naturally curious and enjoy learning about new industries, which makes the beauty and wellness sector an exciting area to grow into.

In addition to my technical and client-facing experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my background can contribute to Fresha's growth.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
