I am writing to apply for the Social Media Nebenjob: Content Creatorin (w) fˆ…r Mode, Pflege & Lifestyle position at amana-shop.de. Your online shop for modern women's articles, ranging from oriental items and care products to elegant dresses and headscarves, has a clear and appealing brand identity. I appreciate the opportunity to contribute to your social media growth with authentic, well-structured content.

Although my professional background is in software engineering, I bring strong organizational skills, a structured approach to planning, and the ability to work independently. Creating 14 videos per week requires discipline, consistency, and the ability to plan ahead. I am confident in my ability to prepare scripts, develop strong hooks, and produce engaging short-form content that resonates with your target audience.

I understand the importance of aesthetics and trends in fashion and lifestyle content. I am comfortable in front of the camera and can present products naturally. The flexibility of this role, combined with the opportunity to grow into live-shopping events, is exactly the kind of creative challenge I am looking for.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I look forward to the possibility of contributing to amana-shop.de's social media presence.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
