I am writing to apply for the Executive Assistant position at Cyara. Your work in AI-powered customer experience assurance is impressive, and I am drawn to the opportunity to support a CEO and leadership team in a growing, technology-driven company.

While my professional background is in software engineering, I have developed strong organizational and coordination skills through managing complex, cross-functional projects. In my work as a Web Developer, I regularly coordinated with stakeholders, tracked action items, and ensured that project milestones were met on time. I am comfortable preparing materials for meetings, managing communications, and maintaining visibility into multiple priorities simultaneously.

One area that particularly interests me is the coordination aspect of this role. I have experience acting as a central point of contact across teams, surfacing issues that need attention, and ensuring that leaders have the information they need to make informed decisions. I am proactive, detail-oriented, and accustomed to handling sensitive information with discretion.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to Cyara’s continued growth.

Thank you for your consideration.

Sincerely,

Md Shahanur Islam Shagor
