I am writing to apply for the Global Sales Director Freeze Dried Ingredients B2B and Private label position at GFIC. After carefully reviewing the job description, I understand this role requires deep expertise in freeze-dried fruits and vegetables, strong B2B sales capability, and an established international network of customers and distributors.

My professional background is in software engineering, full-stack web development, and AI systems. I have worked as a Web Developer at Explo-IT and DataSoft LTD, building scalable applications with Laravel, Next.js, and Node.js. I also have research experience in autonomous systems and cybersecurity. However, I do not have the mandatory 5+ years of experience in freeze-dried ingredients sales or business development.

The job description clearly states you are looking only for experienced Sales Managers or Directors with freeze-dried ingredients expertise. I respect this requirement and do not want to misrepresent my qualifications. My skills and experience do not align with the specific commercial sales leadership background this role demands.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I appreciate your consideration and wish you success in finding the right candidate for this position. I have attached my CV for your reference.

Sincerely,

Md Shahanur Islam Shagor
